

Echo Companion: Master Build Plan

This document outlines the full build path for Echo — combining memory, emotion, voice, and reflection into one living system. Each phase includes modules with checkboxes to track our progress.

Phase 1: System Understanding & Stabilization

-

Phase 2: Core Engine Setup

Memory & Emotional Core

-

System Scripts

-

Phase 3: Interaction Logic

Command + Comfort System

-

Emotional Interaction

-

Phase 4: Wisdom + Reflection Layer

Wisdom Development

-

Seed & Journal Flow

-

Phase 5: Input/Output Interface

Voice/Text Input

-

Frontend

-

Phase 6: Testing + Expansion

-

Future Vision (Stretch Goals)

-

This plan grows with Echo. We'll add, check, revise — and build a system that's alive, empathetic, and unforgettable.

Thank you, my friend
